

## Lee Shippey Writes On Russia

IN CHULA VISTA High School the other night I heard an illustrated lecture by Ray Dinsmore, American businessman, on "The Face of Russia." He said that a year ago he had entered Russia by the back door, through Afghanistan, had gone clear across to Lenin-grad and then back to Moscow.

There were numerous places where he had not been allowed to go, but in a sojourn of several months he had visited many cities, big and little, had been allowed to talk freely with people on the streets and had found them all interested in America.

He showed pictures of some beautiful buildings, stressing the fact that all had been built in the days of the czars, and also of numerous apartment houses which also looked impressive, though he said construction was far below American standards.

"But they are so much better than what the people had known before," he said, "that they seem wonderful to them."

TO MY MIND, that is the hope of the world. You cannot educate people and then keep them from thinking.

Anyone who has read Tolstoy or Pushkin knows that not so many years ago the Russian people had no chance for education which might make them think.

When a big estate was sold the serfs were sold with it, just like the other livestock.

The young people shown in Dinsmore's pictures were a wholly different generation.

There are reports now that the desanctification of Stalin has shocked a populace long taught to think of him as a demigod.

Millions must be thinking that if their leaders were so terribly wrong before they may be equally wrong now. The love of liberty is innate in every heart, even in Russian and Chinese hearts.

SOME PERSONS present seemed displeased because the pictures showed hopeful progress in Russia. One questioner seemed to think it "un-American" to show progress in a Communist nation, even though nothing favorable to Communism was said.

But all of us should realize that the Russian people are making progress, and the more they learn the more chance we have of getting them to see the wisdom of our better way of life.

I sincerely hope that if our schools embark on studies of Communism the studies will be objective and honest, not merely inspired by hate and fear.

NOVEMBER Readers Digest says our underground launching pads for giant missiles, now being built, comprise the greatest structural project our nation has ever undertaken.

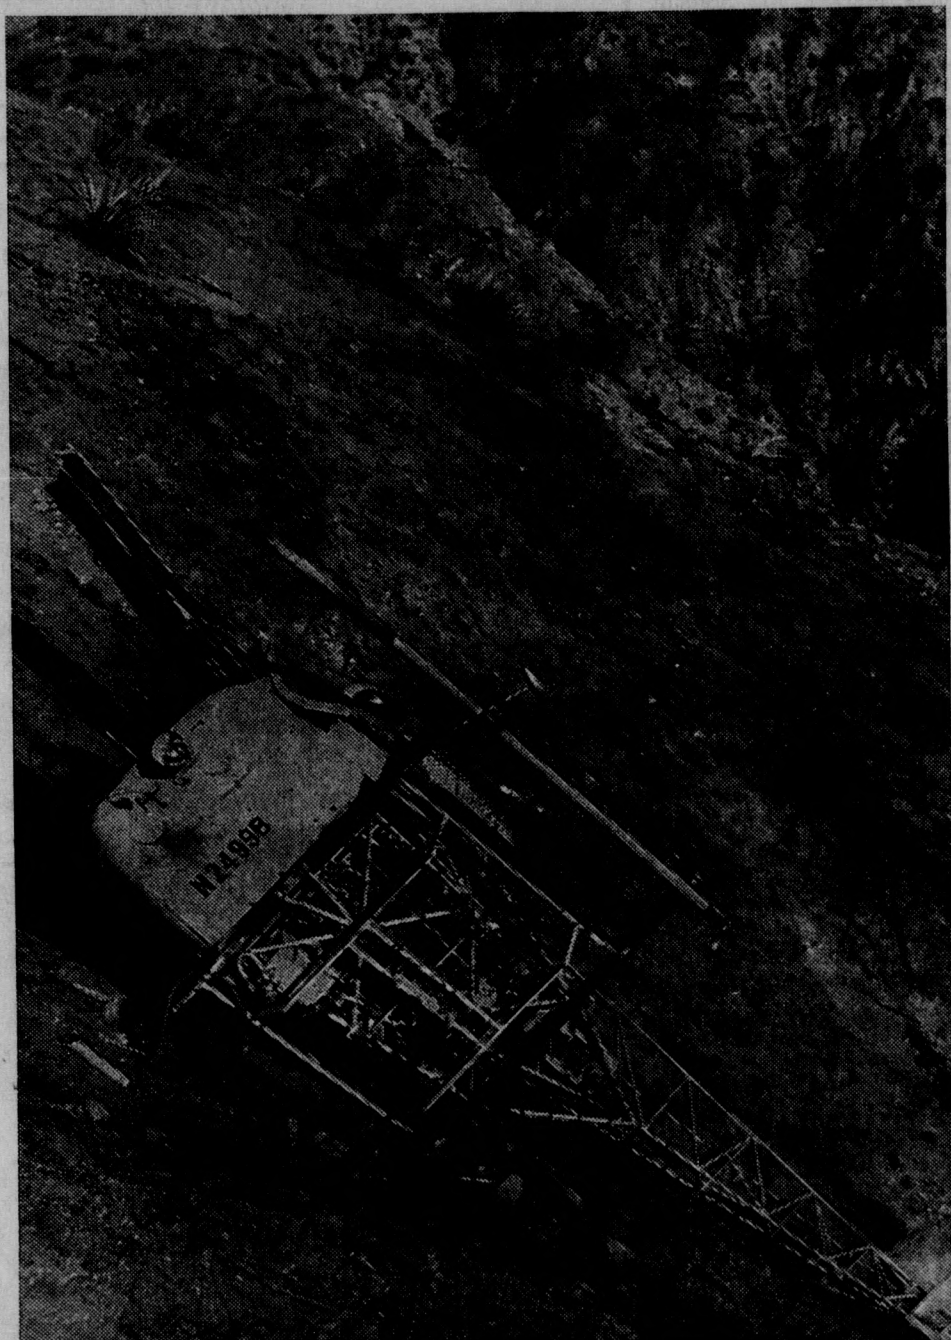

We are spending billions of taxes, not to mention private funds for shelters, to be prepared for dangers we hope will never come and which should not ever come.

Yet Russian and American athletes, entertainers, chess players, musicians and scientists meet one another on friendly terms.

We should be intelligent enough to avert catastrophe comparable to a million Bel-Air fires, or even worse. And the only way we can do it is to know the truth, not merely what we should hate, in the people we want to convince.

### Install Officers

Sierra Madre Chapter, Order of Eastern Star, will hold an open installation of officers for 1962 Monday night at Masonic Temple. Ruby Simmons, worthy matron, and Marcus Woodward, worthy patron, will preside.

IN OUR OWN BACK YARD — Helicopter pictured after it turned over at the top of the firebreak north of Baldwin Ave. Pilot, Barry Donning of Van Nuys, and two "cats" (men who mop up after a forest fire) who he was attempting to land, escaped uninjured. After this picture was snapped from the air, the marooned copter was dismantled and the parts flown back to Van Nuys for reassembly. Company leases copters and planes which drop borate on forest fires, to the U.S. Forestry Service.

### Defense Council Meets

## Larger-Size Fallout Shelters Approved

Larger, from five to ten, bomb shelters rather than several scores smaller ones each holding about 100 persons, was approved by Sierra Madre's Defense Council at its Monday night meeting in City Hall Council Chambers.

The report of the shelter sub-committee recommending this, is directional and depends on further study of population distribution in this city. In other words, some shelters might house 1,500 persons, others 2,000.

The Defense Council approved the proposed county bond issue for fallout and blast protection, with provision that current construction by individual cities would not mitigate against receiving future financial benefit from the county.

CIVIC CLUB members were reported interested in the Defense Council's work and offered help where required. The club favors a command post so that its members can know where to go in case of disaster.

Weaknesses of the proposed 100 units each to shelter 100 persons was pointed out, especially in connection with policing, medical aid, costs of maintenance, repair and operation and lack of communications.

### New 6-Unit Apartments Cost \$70,000

A six-unit stucco and wood apartment house, overall cost of which will be around \$70,000, will be erected on Lot 9, Lunt Tract, N. Auburn, by Dr. A. G. Stone of Duarte Rd., Arcadia, it was announced yesterday.

Dr. Stone has already taken out a building permit for the construction which has been let to the James H. Hedrick Co., of San Gabriel. There will be four apartments on the first floor, two on the second.

PERMIT ALSO has been issued to Sierra Engineering for a \$11,000 concrete block repair shop which will be erected at a rear corner of its new addition now nearing completion.

### Howbert, Operated On, Does Nicely

Dale W. Howbert of 297 Mariposa, was operated on Saturday at Sierra Madre Community Hospital and is reported doing nicely. With a South Pasadena greenhouse establishment, he resides with his wife Peggy and daughters Dextra, Priscilla and Paula.

## Something for Parents and Children

This Friday, as is every last Friday of the month, is Air Raid Siren test time. The test will be made at 10 a.m.

PARENTS — HERE'S A QUESTION: Your children will be home from school Friday. What would you do if we had an alert? Could you get your children home fast enough from their play activities? Do they know what the alert means? Do you know what to do?

The monthly Air Raid Siren test is a good C.D. exercise for all members of your family. Plan an exercise for your own family.

★ ★ ★

DO YOU KNOW where 640 and 1240 kilocycles are on your radio dial? Does your family? You should acquaint yourself with these vital emergency facilities

which might be your only means of learning official information if this country is attacked.

The test signals will be run as follows: THE ALERT SIGNAL: A steady blast of three to four minutes' duration (one minute during test).

THE TAKE COVER SIGNAL: A wailing tone or series of short blasts of three minutes' duration (one minute during test).

The Sierra Madre office of Civil Defense would request that any Sierra Madre resident who is unable to hear the siren test to please drop a postcard to siren test to please drop a postcard to office of C.D., 55 W. Sierra Madre Blvd., Sierra Madre, Calif., and give your location.

### Auto Hits Pole

## Jenkins Killed In Car Crash

A Sierra Madre man, Joseph E. Jenkins, 39, of 50 E. Bonita, was killed instantly at 2:30 a.m., Wednesday, when his car, eastbound, rammed into a phone pole near 329 W. Colorado Blvd., Arcadia.

Jenkins, with the Consolidated Electric Dynamics Corp. of Pasadena, had been showing customers around Tuesday night, according to Arcadia and Sierra Madre police reports, and was on his way home when the crash occurred.

Arcadia police who investigated found it necessary to use a crowbar and other instruments to extricate the body from the automobile which was badly smashed.

Mr. Jenkins had been market manager for Consolidated Dynamics for eight years, having been transferred two years ago from Pawtuxet, Maryland, to the company's Data Recorders Division in Pasadena.

Surviving are his wife, Elinor; and three children, Edwin, 17, Robert, 14, and Peggy, 9.

CHARLES COLLINS of 1924 Alegria, Sierra Madre, was treated at St. Luke Hospital after his car, involved with another, careened across the street at Hastings Dr., and Sierra Madre, striking a fire hydrant.

The crash sent water 100 feet into the air and Collins, unconscious and trapped in his car, was rescued from drowning by Pasadena Police Officer Leonard Reynolds.

Collins going west on Sierra Madre Blvd., was in collision with an auto operated, police report, by Robert J. Dumas of 1210 Rexford Ave., Pasadena.

Dumas and his passenger, Timothy Paxson, 14, of 1000 Hastings Ranch Dr., and Collins' passenger, Michael Rubin, 17, of 6412 N. Tre-lawney St., Temple City, were also treated at St. Luke for minor injuries.

### Sierra Madre Will Get BFC Pledges

Employees at the B. F. Goodrich Company's Los Angeles tire and fuel cell manufacturing plant who reside in Sierra Madre have designated that \$41 they have pledged in the current AID-United Givers drive shall be channeled for use by Sierra Madre participating agencies, it is reported by Plant Manager J. M. Robbins.

DAVID L. ROESS joins wholeheartedly in supporting Sierra Madre's Rose Float project when he purchases one of the miniature roses from Kathy Koenig and Stef Turner. Proceeds from the sale go toward expense of this city's "home-made" float for the Pasadena Tournament of Roses Parade New Year's Day.

## Young Float Girls Reap Rose Harvest; Will Sell Emblems This Weekend Also

Sierra Madre's Float girls, comely every one of them, were on the ball at street intersections and in front of downtown buildings last Friday and Saturday selling the miniature roses, sale of which helps to pay for construction and decoration of this city's entry in Pasadena's famed Tournament of Roses parade, come New Year's Day.

The amount collected was \$375.65.

Furthermore, this same bevy of young beauties will be at the identical task this Friday and Saturday — you can't miss them and you don't want to — for Sierra Madreans have achieved a reputation in the San Gabriel Valley for the way they rally personally to the support of their "Home-made Float" which consistently wins prizes in its category.

MEANWHILE, contributions have come in from merchants and businessmen anxious to see that nothing is left undone to make this year's float an outstanding success, according to James Fisher, chairman of the Float Association.

Donations already have been received from Arnold's Hardware, P. B. Carrell's, Flamingo Properties, Sierra Printers, Sierra Engineering, Richley of California, Dr. Turn to page 8

## Closed Fire Area's Boundaries Extended

An earth shock at 9:36 o'clock, flood precautions, this incidental to the aftermath of the recent \$2 million, 1,250-acre fire, were principal factors occupying Sierra Madre City Council's attention Tuesday night. So lengthy was the agenda that part of it had to be put over to an adjourned meeting next Tuesday night.

The earthquake, rocking Council Chamber for a few brief seconds, was teamed with advices from the U.S. Forestry Service to Sierra Madre police to be on the lookout for a station wagon bearing an Oregon license and containing two men who were throwing cans containing an inflammable liquid and lighted through a rag wick into the brush in the San Dimas region. Police have the license number.

Successive forest fires on three consecutive Mondays have alerted police and Federal authorities to possible arson.

Concerning flood control following the fire, Leonard S. Hollinger, Los Angeles County manager, proposes 16 new fire stations, one of which would be built at Grand View and Foothill Blvd., Sierra Madre.

### COUNCIL adopted City

Administrator Lawrence C. Bevington's suggestion for extension of the closed fire area. This, too, resulted from the Oct. 30 fire and includes additional territory to the north in the Auburn and Mt. Wilson Trail region.

Incidentally, Mrs. John H. (Jean) Maddox of Auburn, displayed a closed fire area sign charred by blaze as a reminder that extension of the closed fire area was needed. Atty. Noren Eaton opposed the extension, contending that it infringes on his use of the trail.

Fire Chief Charles E. Brown, reporting on the fire, attributed it to a careless cigar smoker. Chief Brown reported that the fire had destroyed 300 acres of watershed in Sierra Madre, with a loss estimated at \$150,000.

Council authorized the chief to purchase 3,400 feet of new hose to replace hose damaged in the fire or which has become weakened through the years.

TURNING to flood damage possibilities, Administrator Bevington reported that 4,000 sandbags had been distributed to Sierra Madreans and that more are available. He received the outspoken praise of many spectators present for the prompt way in which the city has approached the flood situation.

Necessity for flood protection at the summit of Michillinda was pointed out, cost of which will be between \$7,000 and \$10,000, of which the county is expected to pay half.

Pasadena is adjacent but

### 4,000 Sandbags Are Distributed

Sierra Madreans certainly are conscious of possible flood damage following the \$2 million, 1,250-acre forest fire three weeks ago next Monday.

Four thousand sandbags have been distributed by the authorities at City Hall, usually in 100 bag lots, to property owners anxious to protect their holdings.

Of stout burlap, they can be filled with sand and then placed about to protect properties in case of floods.

the latter city is not willing to join in the project, and City Administrator Bevington pointed out this city must strive to protect its own citizens.

The city administrator is to meet with the County Flood Control District on this proposal.

COUNCIL authorized expenditure of \$2,500 to assist in restoration of hillside properties damaged by the fire. This includes reseed-ing.

Approval was given the county's \$400 million bond issue for constructing fallout shelters, but urged that

The admission price will be 90 cents for adults, 40 cents for children under 14. As a sellout is anticipated again this year due to the ever increasing popularity of the show, those not obtaining tickets through school room mothers are advised to contact Elena Brown, ticket chairman, at EL 5-9693.

## Three Sierra Madre Stores Will Be Represented At Mills College Alumnae Fair

The Mills College Alumnae Club, of which Mrs. Robert A. (Eleanor) Bettencourt of 175 S. Lima, Sierra Madre, is president, is preparing for its annual "Stores Display Fair" at the Pasadena Shakespeare Club on Friday, Nov. 17, from 12 noon to 9 p.m.

Three Sierra Madre stores will have tables on which their offerings will be displayed. They are Wessel's Suburbia, Don Jackson's and Arnold's Hardware and Gift Shop.

The stores, to an appreciable extent, are concessionaires, paying the club a flat rate for the tables on which their goods are exhibited. The sum received is used by the club to further education of worthy young women at Mills College. At present four girls are studying there under scholarships provided by the Alumnae Club.

He told Mrs. Nelson of a fellow artist named townman, Helger Micholalsen, who knew and worked with Borglum on the Iron Mountain fresco and tremendous project of carving the gigantic faces of the four American Presidents on Mt. Rushmore.

**MICHAEL RUSHWORTH** of Chelsea, Vermont, lies critically burned in Arcadia Methodist Hospital, the valiant victim of our Sierra Madre fire.

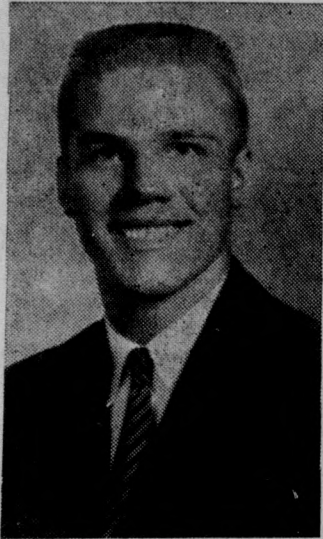

Because we're all so deeply grateful to the fire-fighters whose courageous efforts saved our homes, I know you'll want to send a special note of thanks and encouragement to this handsome 18-year-old youth who was trapped by raging wind and flames on a Sierra Madre hillside 3,000 miles from home.

I think Mike is typical of the ideal most of us have of the "All-American" boy. Until three months ago, he lived with his family on a Vermont dairy farm, played baseball and basketball in high school and held state office in the Vermont Future Farmers of America.

In fact, he was a delegate to the Future Farmers National Convention in Kansas City last year! Always an outdoor enthusiast, Mike loved hunting and fishing; and made a hobby of buying, repairing and selling guns. He once bought two 1928 vintage cars and mechanically put them together to make one good running car.

**FOLLOWING GRADUATION** from high school, Mike and his cousin, Craig, decided to earn money and experience in the Forest Service before entering a Massachusetts forestry school next February, and came to California three months ago.

They were assigned to the Dalton Canyon Hot Shots and underwent rigorous training, which has undoubtedly helped his present physical condition. Mike is popular and sorely missed by the Dalton crew. But the feeling is mutual. Despite his condition, he was aware and much concerned for the

Michael Rushworth

safety of his pals during the Bel Air and Kagel Canyon fires. Lois Haikara, former resident on Cynthia, but now living in the San Fernando Valley, called to tell me what the 950 people in Mike's home town are doing. She's from Chelsea too. Seems the town folk were crestfallen to learn Mike can't have flowers in his room, and furthermore, he couldn't see them anyway; so now they've placed collection cans in the shops and Mike can use the money as he wishes.

**IT WAS A PRIVILEGE** to meet Mr. and Mrs. I. S. Rushworth, Mike's parents, who flew out here three weeks ago and stay at his bedside 'round the clock. Both appear younger than I had expected. She's pretty

and petite, and while seemingly calm and steady, there is no mistaking the worry in her eyes.

Mr. Rushworth is handsome too; both appear typical of the reserved and proud Vermonter.

This was particularly obvious when I mentioned what the folks in Chelsea were doing. When the doctor tells them Mike is off the critical list, Mr. Rushworth will return to his 600 acre farm.

"Can't let the neighbors do my chores for me indefinitely," he says.

Besides the vast acres of woodland there are 50 head of cattle and 2,500 hens to look after. Oh, and not to be overlooked, Mike's younger brother and sister.

**THE RUSHWORTHS** expressed high praise for the hospital, doctors and staff. Mike lies on sheets of aluminum foil in an isolation room. Nothing must touch him. His parents and the hospital staff wear masks and gowns in his room.

He's presently getting whirlpool therapy, but Mike is so badly burned it will be some time before doctors can determine the possibility of skin graft operations.

I wrote in this space last week that we owe the fire-fighters a greater debt than taxes can ever pay. I've heard so many people praise these men and not know just how to go about doing so.

Well here's our chance. Let's shower Mike with so many letters it will take his mother days and days to read them to him — and maybe we can help him forget his pain for a little while.

**IF YOU THINK** it odd that the Region 12 Boy Scout Conference was held in Las Vegas, Freida Faust will set you straight. She and Clifford were there last week, (he's on the National Council of Boy Scouts of America), and rave about the wonderful convention facilities.

However, the moment the conference adjourned they hurried home as Freida

ROSEMARY COTTAGE members, at a tea, prepare for their holiday effort to aid others. From the left Mrs. Edward R. Halperin, Mrs. George Sanders and Mrs. Ernest P. Maurin Jr.

might attend the San Gabriel Women's Club bazaar. Since Freida is SGWC prexy, and so fond of Las Vegas convention facilities, I shouldn't be surprised if they decide to hold the next bazaar in that glitter town. Especially, since they tell me there's a sign on the road reading, "Free aspirin, tender sympathies, and Green Stamps."

**MRS. ALBERT KORNGIEBEL**, welfare chairman of Don Benito PTA, reminds Upper Ranchers that this is the annual clothing drive week. It's hoped you'll take a closet inventory, and give the PTA any outgrown, but clean and mended clothing.

I have said before, and I say it again, sewing has never been one of my talents. Somehow I have squeaked along and managed to keep things tacked together with a maximum amount of effort.

I will say that I take kindly to the manufacturers of all of the iron-on tapes. My goodness, I can whip up a store of mending with my iron and a little tape.

But the best news of all came this week as I was reading the ads. Lo and behold, they now have iron-on BUTTONS. This will just about solve all of my problems except snaps. There are those of you who will read this and smirk and wonder how anyone can be so stupid as to be unable to sew a fine seam.

Well, I am! It is not that I am against sewing, it is that sewing is against me. I am sure there is a plot to undermine my morale about the whole thing.

When I buy thread I always get the kind that snarls. My needles break, too! And if that doesn't happen, I stick myself and bleed and bleed and bleed. At least with this typewriter, I am comparatively safe from harm!

**MR. AND MRS. WALTER DORN** of Sierra Madre Villa hosted a big birthday anniversary party last week that included many of the local Dorn family. Honorees were Walter Dorn Sr. and his grandson, Daniel son of Mr. and Mrs. Warren Dorn.

Others were Mr. and Mrs. William A. Botts, Mr. and Mrs. Warren Dorn, Mr. and Mrs. Wendell Robinson, Mr. and Mrs. Richard A. Dorn, Mrs. Walter Dorn Sr., Mr. and Mrs. Donald A. Lambert and Kathy Dorn.

**MRS. ROBERT W. ANDERSON** of Fairpoint was among the hostesses last week as she entertained a group of friends at a bridge luncheon. Her guests were Mmes. Leslie Garlinghouse, Dave Elmer, Richard Cox, Reid Anderson, George Mannschreck, Bill Blackman, Norman White and John Morris.

**MRS. EDWIN PYLE** returned to her OldHouse Rd. home all full of smiles last week after a ten-day trip to San Francisco, attending the horse show at the Cow Palace.

Her horse, "Something Blue" a saddle-bred and fine harness stallion, was shown three times and came out with three blue ribbons, plus a magnificent trophy. This was the only entry in the entire show that received three blue ribbons. Good reason to smile? I'd say!

**THE A. C. ONGS** of Trevan Rd. also were among observers of the Cow Palace horse show. They went up with a group of friends, several of whom also are in the Sheriff's posse. They were with Mr. and Mrs. Bud Hatterschied, Mr. and Mrs. Robert Albertson, Dr. and Mrs. Bruce Kurtz, Mr. and Mrs. Kenneth Scott, Mr. and Mrs. John Hoyt and Mr. and Mrs. Bill Hauser, the latter of San Diego.

**MR. AND MRS. RALPH PAQUETTE** of Wynn Rd. were hosts at a pot-luck supper party in their home Saturday night. Their guests were Mr. and Mrs. John Wiles, Mr. and Mrs. B. A.

Mission Covenant Church. There were about 70 members present to hear Mrs. Margaret Jacobsen speak. Mrs. Jacobsen is a widely-known educator and author of the book, "The Child in the Christian Home." After

the meeting refreshments were served.

**MRS. HARRY PULASKI** of Doyme Rd. entertained her bridge club of 15 years long standing. After a luncheon at the El Dorado, they all

went to the Pulaski home for cards. The ladies were Mrs. Lois Dinsmore, Mrs. Dorothy Haynes, Mrs. Leta Steers, Mrs. Gertrude deGar, Mrs. Nancy McFarlan, Mrs. Lola Gates and Mrs. Irene Bader.

**CARROUSEL** sponsored by Trinity Women's Guild should help the festive decor and gift-minded matrons in the Ranch to prepare their Christmas shopping list. Although there will be no sales in the homes, gifts previewed may be purchased later at the stores.

The Edward Messinger, Donovan Davis, Clay Snider, Donald Ridenour and Robert Burke homes have been beautifully decorated by Mrs. Joseph Smyth and her committee: Mmes. Walter Lord, Anthony Trevisano, Wesley Williamson, William Holl, Phil Birkman, William Worden, Merle Miller Jr., Robert Campbell, Alden Albee and Allen Stearns.

Mrs. William Pursley, Guild president, suggests you can still purchase a tour ticket and have tea, too, at the Trinity Church this afternoon.

**TROTTERING OUT** to the Turf Club last weekend to view the Festive Fair sponsored by the Arcadia Branch of American Association of University Women were Jeanne Davis, Janet Lord, Connie Messinger and Peggy Smyth.

The gals were no doubt culling ideas for their current endeavor, namely, the above-mentioned Trinity Guild Home Tour.

Spotted Ranch members of AAUW Anita Nathan, Pat Livingston, Bea Boorey, Helen Lemmon, Louise Major, Georgia Cumig and Kay Samson serving tea at the successful Arcadia affair.

**BEA AND CRAIG BOOREY** were hosts Saturday night at the monthly meeting of Upper Ranch couples for cocktails, pot-luck supper and bridge. Chatting and bidding were Pat and Jack Zemer, Jeanne and Don Davis, Barbara and Lee Campbell, Pam and Bill Worden and Joe Smyth.

**TRADITIONALLY** this time of year the Women's Architectural League of Pasadena honors newly licensed architects and their wives. And so, approximately 50 members and their husbands will greet these new architects Saturday at the home of Mr. and Mrs. Charles A. Klingerman, 1210 Wynn Rd.

Although none of the new architects live in our area, some of the greeters are well known to us. They include Messrs. and Mmes. Robert Gordon, D. A. Watson, William Duquette, Frank Nick, Kenneth A. Gordon and Mrs. Helen Cady.

**VIRGINIA AND JOHN PALMER** recently purchased a new TV, and thoughtfully gave their old set to Noel Livesey, popular English exchange teacher at Field School. A Field father, David Wyman, owner of San Marino Television Service, made a further contribution by repairing the set.

There are so many organized but distant "People to People" programs, that it's especially good to hear about expressions of friendship in our own town.

### Two Hurt In Car, Milk Truck Crash

A crash of a milk truck and automobile at S. Baldwin and Foothill Saturday morning sent two men to Arcadia Methodist Hospital and brought extensive damage to both vehicles.

The injured men were Theodore Woodrow Jamison, 46, of 1002 Fairview, Duarte, and Edwin Hugh Saver, 26, of 235 Oaks Ave., Monrovia. Davey suffered internal injuries while Jamison was cut and bruised about the body.

Arcadia police report that in the early fog the car driven by Davey smashed into the rear of the milk truck owned by the Supreme Dairy Co.

## Around the Town With Martha

By Martha Sharp  
ELgin 5-0003

**ART AND DOT DRAEGER** will leave Sierra Madre in December to live and make their home at Kailua on the island of Hawaii on Kona Coast where the climate is considered the finest in the world.

Art and Dot spent their honeymoon in Hawaii and like everyone else who found a "Little Bit of Heaven" for a short time, dreamed of returning to it. Last year they returned to the Islands for a vacation and though their roots were in Sierra Madre and the Mainland, they decided to nail down their day dreaming and make it a reality.

Art has been with the Hedrick Company as vice president for seven years and it's a difficult decision to leave work and people you enjoy and love. Sierra Madre has been their home for a long time. Dot has been here since around 1917.

Art will be flying over on Dec. 5. Their car will be shipped over so it will be in Hilo when he arrives. He'll be on his way to Kailua to explore the nearby world-famous hunting area abundant with small game birds, including dove, pheasant and chukkar (Remember Dot's famous squab dinners).

Dot and daughter, Toddy, will be flying over around Dec. 23 to arrive in time to enjoy Christmas eve and the holidays in the Islands with Dad. After New Year's Day, Toddy will return to her studies at Stanford.

P.S.—Art and Dot are renting their home at 78 Esperanza, so we are happy to know they'll be flying back occasionally to see their many friends in Southern California.

**A THOUGHTFUL NOTE** from Dorothy Hall arrived last week just on deadline time and thus did not get in last week's Sierra Madre News.

Dorothy is receptionist for the West Coast office and branch of the Chilton Company Publishing firm, in Los Angeles, specializing in reader's service.

She's also a former Sierra Madrean and at one time was a popular employee at the Sierra Madre News. Our loss, Chilton Company's gain. She wrote this encouraging message:

"I know these are anxious hours for the dear hearts and gentle people of Sierra Madre. I can see the smoke from my hotel window. God willing, they will get the fire out soon."

And so they did, Dorothy, thanks to our loyal Sierra Madre Fire Department and coordinating units of Arcadia and Pasadena, the County and U.S. Forestry Service. She also requests issues of the Sierra Madre News and sends good wishes to the people here.

She'll be out here around Thanksgiving time and we hope to see her then.

**GREETINGS** and best wishes to Mrs. Anita Barber of 374 1/2 Mariposa who will celebrate her birthday anniversary tomorrow, Nov. 17.

There'll be a family party with her daughter, Mrs. Barbara (Babs) Burke, and her two grandchildren, Sheila, nearly 5 and Brian, 12.

Babs and her mother are two-look-alike lovelies. They each have a shining heart.

**THE CHAP** who presses the button on the noon whistle at the City Hall will get a chuckle out of the following — not so long ago we stopped by the Sierra Madre City Park to chat with Brunell Haynes with little daughter, Charlene, nearly 4, and Liz Shen with her trio of boys, Johnny, 3 1/2, Gregory, 2 1/2, and Andrew, just five months today, who were having a picnic lunch on the park lawn.

Suddenly the noon whistle roared out its loud blast. Greg, otherwise known as "Gorgeous George or Greg" (he's a miniature-sized wrestler type) toddled up to his mother, tapped her on the shoulder and announced "Hey! Liz! Someone's getting married."

See what condition does? Greg must have been briefed on whistles, noisy tin cans and other raucous sounds being part of a wedding celebration.

**IT WILL BE** an especially happy Thanksgiving for Mr. and Mrs. Robert McDaniel of

100 S. Michillinda Ave. Their little 8-month-old daughter, Katherine, who has been in the Children's Hospital for the past six months with a serious ailment, is now home.

Mrs. McDaniel says, "She's ours for keeps now." The McDaniels have another little girl, Patricia Randeon, who'll be 2 in February and who is just as happy as anyone that Katherine is home permanently.

**WHO SAID** there was no old-fashioned courtesy left in this cynical world? Not so with Dave Roess and his staff at Roess Market.

Now hear this—One morning a lady telephoned and asked Freda Follette, Roess Market bookkeeper, just how many potatoes were packed in a 10-lb. bag. This didn't stop Freda for a second as she replied that potato content depended on size and quality (none but

the best at Roess Market).

The woman said she didn't want too big or too small potatoes, she just wanted a so-so sized potato.

With all the patience in the world, Freda suggested she come to market any time between 9 a.m. and 9 p.m. and check with Ed Hawkins, the accommodating produce manager.

Jangle went the phone again—this time a small voice asked if the 10 a.m. bus had arrived. Freda told her by Market clock time she'd have three minutes to make the bus. The answer was a grateful and relieved "thank you."

But Bob Osti across the street will like this—Seems Bob had closed up for a weekend vacation for his employees and self. Another Brrrr—Freda? Is Osti's open this morning? They are? Fine, we'll be down, and by the way, let me speak to Red about a tur-

key—Thanks so much, see you later.

**SHORT TAKES AROUND TOWN**—John and Jane Buchanan are one of the hand-somest couples in town—Charlie Louk looked fine between the sycamores (our pix in Sierra Madre News), but is much handsomer and one of the most pleasant people to meet in person—Bob Green at the Edison Company on Baldwin gets better looking every day.

To Edwin Ward Jr., your lovely wife, Madeline (Billie) Ward, always looks as though she has just stepped out of the Vogue, Harpers Bazaar, plus the glamour magazines. Besides she's a

she Peacherino.

**NEXT WEEK** the Sierra Madre News goes to press early in the week because of Thanksgiving Day on Thursday. Let's give our advertisers a break and you readers will find all the best bargains.

This goes for you folk in the Santa Anita Highlands, Santa Anita Oaks and Hastings Ranch area. Come over to Sierra Madre and find just what you want within a small mileage area. See you early Around The Town next week.

Habits form the rails over which a man's train of thought travels.

## Spending \$75,000 On Bank Building

Work is now under way on installation of a time and temperature sign atop the Monrovia Mutual Savings and Loan Association Building at 237 S. Myrtle Ave., Monrovia. The sign, the only one of its kind in Monrovia, is being installed at a cost of \$7,000, and will rise 48 feet in the air.

The sign will flash alternately, first the time and then the temperature, in brilliant illumination supplied by a battery of more than 200 25-watt bulbs. According to Robert C. Martens, vice president and general manager of the Monrovia financial institution, the work on the modernization and beautification of the building, costing approximately \$75,000, will be completed within the next 15 days.

## Crew 1 Wins Fire Drill By 11 Seconds

Crew No. 1 of the Sierra Madre Volunteer Fire Department has won the competitive drill contest by 11 seconds and as a result will be entertained at dinner by members of Crew No. 2. Going into the final drill only 30 seconds separated the two crews. The winner's time was 40 minutes, 49 seconds.

Bert Embree was elected to the regular department, advancing from the auxiliary.

**MEN OF THE DEPARTMENT** reported initial successes in selling tickets for the unit's Christmas Dance which will be held at the Woman's Clubhouse Saturday night, Dec. 9. Proceeds are for the firemen's Christmas Party for youngsters staged annually in Memorial Park on Christmas Eve.

Members of the department have spent the last two Saturdays cleaning and testing hose, and getting the equipment back in A-1 shape following the recent forest fire. New hose has replaced broken and weak length. The men did this, directed by Chief Charles E. Brown, donating their Saturdays for this task.

## Red Cross Prepared At Forest Fire

Sierra Madre Branch, Pasadena Chapter, National Red Cross, had all its facilities, including a completely manned evacuation center, readied at the Congregational Church during the forest fire which started in Sierra Madre and swept through this area with a \$2 million loss three weeks ago this coming Monday.

This was pointed out at the directors' meeting Monday afternoon. Within half an hour, the disaster chairman in Pasadena, had contacted the Fire and Police Departments here and was advised how to proceed so that there might be no overlapping of services.

**INSTRUCTIONS** to prepare and maintain the evacuee center were received and put into effect promptly. Fortunately, quelling of the fire at the Sierra Madre sector made use of this center unnecessary.

The Red Cross wishes to thank all those who volunteered their services and homes, and especially the Congregational Church for use of its facilities.

An item of interest to veterans are the family calls offering any possible assistance.

## 'Tea, Torah' On Nov. 30

Members and friends of the Women's Division of the Foothill Jewish Community Temple Center of Temple Beth Israel in Sierra Madre, will meet on Thursday, Nov. 30 at the home of Dr. Jules Lamer, 88 Ontare Rd., Arcadia at 10 a.m. for "Tea and Torah" services, starting its fourth year under the leadership of Dr. Charles W. Steckel, rabbi of the Temple. According to Dr. Steckel "the Bible is a book with Jewish text throughout history." In reading the Bible, the rabbi will prove how this book has relevance to our personal and social lives today. In understanding the Scripture and reading its text, we connect the problems of the past with the issues of today.

Dr. Steckel is widely known for his work on Biblical research. He has written several books on the subject.

## Council Meeting

(Continued from Page one) it be voted on next June rather than in February. It reaffirmed its decision to purchase the 3.2-acre Bailey Canyon property from Paul N. Carter for a wood-side park. There had been a suggestion that fire damage to the property should nullify the sale approved at a recent meeting.

The damage, however, was found negligible enough to warrant retention of the acreage and Mayor W. Webster Vannier was authorized to sign the escrow.

**NEW STREET LIGHTING** for W. Sierra Madre Blvd. from Lima to Baldwin received a notch forward when Council set Dec. 26 for a hearing on this project, long needed.

An ordinance establishing an intermediate R-1 building zone of 9,000 square feet to be sandwiched between the 7,500 minimum and 11,000 maximum, was placed on first reading. Deeds for the E. Bonita cul-de-sac project were reported received from the four property owners concerned and who will share in this \$7,755 expense.

Every Sierra Madrean is urged to give, if only small amounts, and become a part of this wonderful community project that introduces Sierra Madre, the little "Foothill City of Livability," to the rest of America, each New Year's Day.

## Anita Tilley Wins Photo Contest

Anita Tilley, 18-year-old daughter of Mr. and Mrs. Jack J. Tilley of 130 Rancho Rd., has been named Regional Princess and runner-up beauty in the California State Professional Photographers Contest. Only two girls from Southern California made the finals and Anita won this outstanding award in the "Miss Photogenic Statewide Contest" held in San Francisco.

Anita is a freshman at USC and has pledged Kappa Alpha Theta Sorority this semester.

## \$3,200 Fee Not Necessary

This newspaper believes that most taxpayers will join it in opposing any \$3,200 payment to Al Coke for detailing a plan to improve our city parks, Memorial and Sierra Vista. Al Foxton, Parks and Recreation Commission member, is correct in his statement that the prospective \$3,200 fee for Mr. Coke is not financially feasible.

We believe that Deputy City Administrator Tom Butch, present recreational commissioner, is entirely capable of visiting various recreational centers in this area and of coming up with a plan adaptable and satisfactory to the city's park needs. And at no heavy and needless cost to the taxpayers.

The financial condition of "Our Town" is solvent — it is in a healthy condition — but it cannot stand constant nibbling at its cash reserves, for this, that and the other, for if this continues it will, in the end, find itself in a fiscal plight from which it will have to be rescued by whom? — the taxpayers of course, and at their expense.

It seems to us that the Parks and Recreation Commission should safeguard carefully and prudently any spending from this time on.

## Candidate Shell Speaks

Sometimes a candidate who has little or no chance of winning an office to which he aspires can have the best viewpoint about the values, worth and needs of that public post.

One of the less flamboyant candidates for the Republican nomination for Governor is Joseph Shell, Los Angeles assemblyman, leader of the minority at Sacramento, who probably has a better chance than any of the other three candidates to evaluate "the feel" of the voting public, especially on conditions applying to California economics at present.

This newspaper has not yet endorsed a Republican candidate for Governor — Knight, Nixon, Shell or Powers. The latter, we understand, is considering withdrawal and instead would run for lieutenant governor, a post he held in the Knight Administration.

NATURALLY, because of our past association, we lean toward Knight but he is going to have to quit being "all things to all men," cease playing footsie with TV glamour boys and get on the ball soundly along economic principles if he is to win the nomination. We don't like Nixon, though we will support him if he is nominated. We doubt whether Nixon can defeat Brown; we believe Knight can.

We know that Shell, barring the unforeseen, hasn't a chance, but we do like his slant on economic conditions and developments in this state.

His report on what he is seeing doesn't add up to a pretty picture. In the last three months he has made 307 speeches in all sections of California and has talked with hundreds of people in virtually all walks of life. There is a general feeling, he says, that the state government is being operated in an ineffective manner, and a general belief that changes in the administrative force, from the Governor down, should be made.

Also, he declares that most people with whom he has talked believe state government is taxing too heavily for what the public is getting out of their burdensome taxes.

SPECIFICALLY, Shell notes that the worst situation now on record is the fact that many firms are either changing plans to locate in California, moving out of the state, or are curtailing their operations here, with resultant losses in jobs, personal income, and of course, taxes to support the state government.

He points out that in the San Francisco Bay area, the state has lost about \$50 million a year through these causes, along with 9,000 jobs.

The state can ill-afford to lose ground in maintaining current jobs and creating new work through establishing new industry and business in California.

With the rapid growth of population, recession of jobs can result eventually only in more welfare programs such as the present Brown Administration sponsors, all of which means heavier costs to California employers now financing most of these programs such as increases in Unemployment Insurance Taxes imposed by the Legislature with the sponsorship of Governor Brown.

The state's receding economic picture travels in a vicious, contracting circle, with the employer eventually to be squeezed in the middle by higher and higher welfare taxes.

SHELL SAYS the showdown must come soon as to whether Californians want to continue the present trend toward the welfare state. He recommends discontinuing this trend through a change in administration at Sacramento.

The Los Angeles assemblyman is the first candidate for the state's highest office who has discussed our economics dispassionately, and pointed out the path the state is now taking. In fact, most of Shell's thinking is dispassionate, but exceedingly full of facts, figures and sound opinions concerning the trends for 1961, along with some cogent ideas for remedies.

He is at least bringing some of the real issues of the forthcoming campaign for Governor into the open.

## Voices Of The Appeaser

To paraphrase "The Song of Solomon": "The winter of the cold war is far from past; the radioactive rain continues; the flowers of evil appear on the earth; the time of the singing of pessimists is come, and the voice of the appeaser is heard in our land. Witness:

In New York City, the Center For The Study of Democratic Institutions, a Fund For The Republic agency, published a pamphlet written by Dr. Fred Warner Neal, former State Department on Russian affairs, and now the Clare-

## Letters to the Editor

Dear Editor:

In my communication of Nov. 9, data was presented to show comparisons among revenues derived from the one-cent retail sales-tax by Pasadena, Sierra Madre and other communities.

Attention was also directed to what the author believes are unfair, inequitable and even unconstitutional aspects of California's one-cent retail sales-tax law. The following table is self-explanatory:

large, wealthy mercantile. It should be of especial interest to note the low school tax rates of Beverly Hills and Commerce; the low city rates of Beverly Hills and Vernon, and the non-existent city rates of Commerce, Industry and Irwindale; the low total rates of Beverly Hills and Commerce, and their respective total taxes per \$4,000 assessed valuation, especially in contrast with the highest rate and total tax in the county, those of Norwalk; finally again the exceeding high sales-tax incomes of Vernon, Industry, Commerce and Irwindale.

Beverly Hills' sales-tax income is more than twice Pasadena's and more than 11 times that of Sierra Madre.

NOTE TOO that Sierra Madre's city tax-rate \$1.532 is almost 43.2 per cent higher than Pasadena's \$1.0700. The following paraphrases a statement that appeared

Can Sierra Madre as a retail center, possibly even hope to compete with larger communities such as Pasadena? Can Sierra Madre ever expect 50 to 70 per cent of its shoppers to come from out-of-town?

A widely-known and liked citizen remarked some time ago:

"Sierra Madre is not quaint; it is poor."

WHAT CAN and should Sierra Madre do about the one-cent sales-tax situation?

Join with other small communities to induce the Legislature to repeal the one-cent sales tax law; or failing in this, demand a fairer and more equitable distribution of the one-cent sales-tax revenues? Incorporate with Pasadena and share its huge sales-tax revenues and low property tax rate? Do nothing about it and let Pasadena, Los Angeles and other cities continue to enrich their residents and their

establishments by levying proportionately smaller property taxes on them, while slowly bleeding away the wealth of Sierra Madre's residents and small merchants and keeping their property taxes high, by imposing unjust, inequitable and "non - representative" one-cent sales-taxes on non-residents?

What do you think should be done? What, if anything, are you going to do?

Dear Editor:

Much has been said in regard to the area back of the stores south of W. Sierra Madre Blvd. This area contains the ground belonging to Mrs. Keating, John Rasmussen, Dr. Jacobs, Sam Perloff, and others.

At the time the three parking lots were being arranged, Mr. Rasmussen made the following offer to the City of Sierra Madre: To sell to the city one of his lots (75 feet by 225 feet) for \$12,000. If this sale had been made, Mr. Rasmussen agreed to give to the city a lot of like size on which the old apartment house building stands. He further offered to remove all trees, the building, and anything else necessary to make the lot suitable for parking and to blacktop same all at his own expense.

Mrs. Keating, owner of the hotel property, agreed to give the city a permanent

easelement on the vacant lots she has adjacent to Mr. Rasmussen's property, to be used in conjunction with the other parking lots. The property owners to the west were also willing to have their parking lots combined with the aforementioned areas which would make the whole area back of the stores from the First Western Bank to the east side of Mrs. Keating's lots available for city parking.

AT THAT TIME, the city had a 30-foot easement coming into the proposed parking lot from the east, and Mr. Rasmussen had a 15-foot easement coming into the lots from the north. Also, Mrs. Karger's lot, 70x265, was for sale and she joins Mr. Rasmussen's lot on the south. Her asking price was \$17,000.

Carl Hansen, at that time, was in the process of building on his lots and made

Thursday, Nov. 16, 1961

SIERRA MADRE NEWS-9

several changes in his plans so that there would be an outlet to the west.

This large area of ground was therefore available to the city for a price less than \$30,000. The writer represented Mr. Rasmussen and made the proposal to the City Council at that time. The proposition was completely ignored, hence the opportunity was lost.

If the above property had been accepted, all of the trucks would have been removed from the street several years ago and the rear end of the stores facing the parking lot could have been improved with rear entrances and this parking lot would have been available to most of the stores in Sierra Madre.

The above information is given only to keep the public up to date on the parking situation in this city and the

total cost would have been a great deal less than for our present setup.

Dear Editor:

My wife and I would like to thank the able fire chief, Charles E. Brown and his efficient department for the fast work that was successful in saving all the houses in our neighborhood at the time of the fire on Oct. 30.

We would like also to thank the crews from other cities, the county and the U.S. Forest Service, together with the willing teenagers and others who held garden hoses while stronger help was on the way.

For 1962...an all-new kind of Ford!

the car that's just right for just about everybody  
right size... right price...

You've never seen anything like it, because there's never been anything like it . . . until today. On the outside the new Ford Fairlane 500 measures a quick 197 inches from stem to stern. A good foot shorter than the cars from which it borrowed its name, it calls the snugest parking places home. At the same time, on the inside the new Fairlane 500 is every inch as big as some of the biggest Fords ever built.

The new Fairlane 500 is priced way under previous Fairlanes, well under many compacts. But Fairlane economy doesn't stop with a pretty price tag. It runs to amazing gas savings—with the world's first economy V-8 or the nickel-nursing Fairlane Six. Routine service is reduced to a minimum—30,000 miles on many items, only twice a year or 6,000 miles on the rest. And it adjusts its own brakes.

## News of the Churches

### 'You Cannot Lose' Topic For Hansen

"You Cannot Lose" is Christ's promise to the Christian which no one else can make and keep, Rev. Ray E. Hansen will point out in his sermon at 10:10 a.m. Sunday at Shepherd of the Hills Lutheran Church, 33 E. Sierra Madre Blvd., Sierra Madre.

"Everything else in life is a gamble," Pastor Hansen will say, "all the way from the farmer who plants seeds and expects a crop to the business tycoon who puts dollars to work and anticipates a profit, even to the lovers who marry and envision perfect happiness and cautious persons who try for a secure life with all forms of insurance, savings plans, health rules and pension schemes. Our best made plans can be upset by unforeseen calamities, injustices, infidelity, wars, communism, bombs."

ANSWERING the question, "How can we win in life?" he will advise, "be a Christian. The prophecies of the end of the world, and life, assures the Christian he really has nothing to worry about, and cannot lose. Living without Christ is the biggest gamble."

The choir directed by Charles E. Markham, will sing the anthem "In Thee, O Lord, My Trusting Soul Reposes."

There will be the annual harvest festival of ingathering of food for the Alhambra Lutheran Home and of clothing and shoes for Lutheran World Relief in Sunday School and church.

### Bethany Notes

THE VOYAGERS Sunday School class at Bethany Church of Sierra Madre will hold their monthly social time this Friday, Nov. 17 in Fellowship Hall at the church.

The theme is a setting in Medieval England and is a costume affair with prizes going to those with the most appropriate dress in keeping with the theme.

Dr. Schuyler Aijian of Arcadia is president of the class, and Bill Weigel, also of Arcadia, is their teacher.

The class is made up of 30-to-40-year-old couples and is one of the most active groups at Bethany Church.

Mr. and Mrs. John Angus of Sierra Madre and Mr. and Mrs. Dick Johnson of Altadena are hosting the party.

DR. ROBERT N. SCHAPER, pastor of Bethany Church, will continue his series on Chapter 6, Hebrews. Also during the service, the Pioneer Girls Club will have a ten-minute part in the service as they culminate the national observance of Pioneer Girls' Week. Special Thanksgiving music will be presented by the Chancel Choir.

Time of the service, which will be held in the sanctuary of the church, is 7:30 o'clock. In order that even the youngest children can attend and participate, it will end at not later than 8:15 p.m.

### Dr. Steckel's Topic 'Value Of Dreams'

Dr. Charles W. Steckel, spiritual leader of the Foothill Jewish Community Temple Center in Sierra Madre, will conduct the services this Friday night. His topic will be "Understand the Value of Dreams."

## Good Housekeeping devoted 12 pages to this smart Encino Home!

(of course... it features a modern gas range!)

It's not surprising that Good Housekeeping came to Encino Hills for a feature article in the September issue. For this home is news—filled with fresh ideas. One of its outstanding charms is a beautiful kitchen. It's typically Southern California—and features a modern gas range.

You're invited to visit Encino Hills soon. To see the "house with the outdoors built in." To see the smart new look in modern gas ranges. When you're ready to buy—a new range or a new home with a built-in kitchen—select a modern gas range with the finest automatic features.

Exterior view of Encino Hills Model Home shows how effectively the architecture joins outdoors with indoors.

Southern Counties Gas Company

Harlan Lee, builder of Encino Hills says, "BALANCED POWER is the common-sense approach to modern living in Southern California. It puts two powers to work—each one doing the jobs it does best. Electricity is provided for lighting, TV, and small appliances. Gas handles such important household jobs as cooking and year 'round air conditioning."

## TIME CLOCK

...for more than thirty electric "servants" who work for you at an hourly cost 21% lower than in 1939.

See those hands up there? They measure the kilowatt hours of electricity it takes to run the more than thirty electric appliances that serve the average California family. (A kilowatt hour of electricity will keep a 100-watt bulb lighted for 10 hours.)

What's so remarkable about a kilowatt hour? Nothing, unless you care how much you spend for things, as most of us do.

The average cost of electricity per kilowatt hour for Edison residential customers is 21% lower than in 1939.

Sure, your electric bill is higher now. That's because you are using more than twice as much electricity as you were in 1939. But your average cost per kilowatt hour is 21% lower.

The reason: more efficient methods of producing and delivering electricity, plus greater usage, have lowered your unit cost.

Electricity...always ready to brighten your nights, lighten your work, help you enjoy life more. What else serves you so many ways for so little cost?
